Citalopram tablet

What is this medicine?

CITALOPRAM is a medicine for depression.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- bipolar disorder or a family history of bipolar disorder
- diabetes
- heart disease
- kidney or liver disease
- receiving electroconvulsive therapy
- seizures (convulsions)
- suicidal thoughts or a previous suicide attempt
- an unusual or allergic reaction to citalopram, escitalopram, other medicines, foods, dyes, or preservatives
- pregnant or trying to become pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. You can take it with or without food. Take your medicine at regular intervals. Do not take your medicine more often than directed. Do not stop taking except on your doctor's advice.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.
